

**INSTALLATION INSTRUCTIONS FOR  
END CAP  
YHM-9484-A YHM-9484-B**

**A competent gunsmith familiar with your firearm should install this end cap. Failure to install this product correctly voids any warranties of the product and removes any liabilities against the manufacturer. Be certain the firearm is unloaded and always pointing in a safe direction before starting this removal and installation process.**

Refer to your instructions on installation of the forearm.

Read the instructions to the section that says *(If you are installing a forearm end cap)*, start your assembly here.

(1) Apply the bonding agent provided with your end cap to the threaded portion of the end cap spreading it evenly.

(2) Screw the end cap into the front of the forearm until it is flush and one of the end holes aligns at the top for installation of the front sight and gas tube assembly if applicable. Allow 24 hrs for bonding agent to cure.

Refer back to your installation instructions of the four-rail forearm
